

EU 2020 Renewables Targets - are we on track to deliver ?

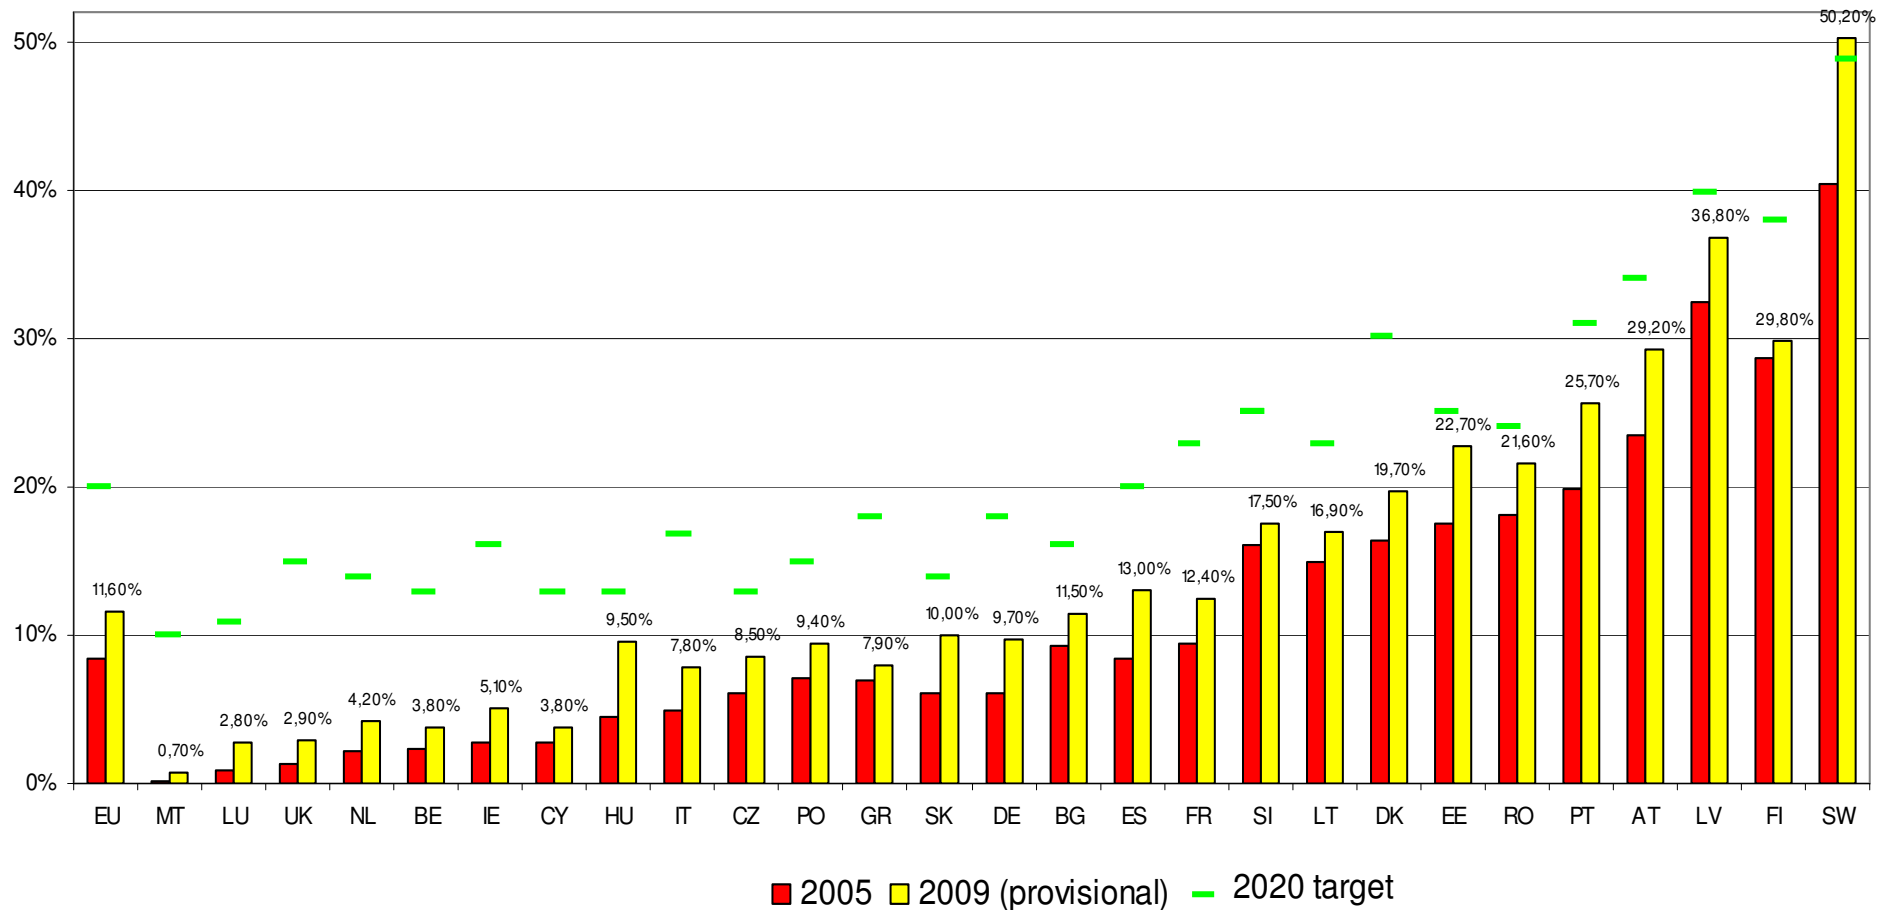

Hans van Steen, European Commission

*EUFORES 11th Inter-Parliamentary Meeting,
Stockholm, September 2011*

Progress to date...

EU renewable energy shares

Technology Results from the National Renewable Energy Action Plans

ktoe

● Technology breakdown - electricity

Technology breakdown – heating/cooling

Technology breakdown – transport

Directorate-General
for Energy

● National Renewable Energy Action Plans indicate:

- Planned growth to 2020 leading to 20.6% by 2020
- Majority of MS will reach the targets by domestic production, 2-4 MS partly rely on cooperation mechanisms
- Total renewable energy consumption will double from 99 Mtoe (2005) to 245 Mtoe (2020)
- Combined EU renewable energy shares in the 3 sectors in 2020 (projections):
 - Electricity from renewable sources – 34%
 - Heating & cooling from renewable sources– 21.5%
 - Transport from renewable sources– 11%
