

# The Role of the Cities in the deployment of RES

Stephan Brandligt,  
Vice mayor City of Delft

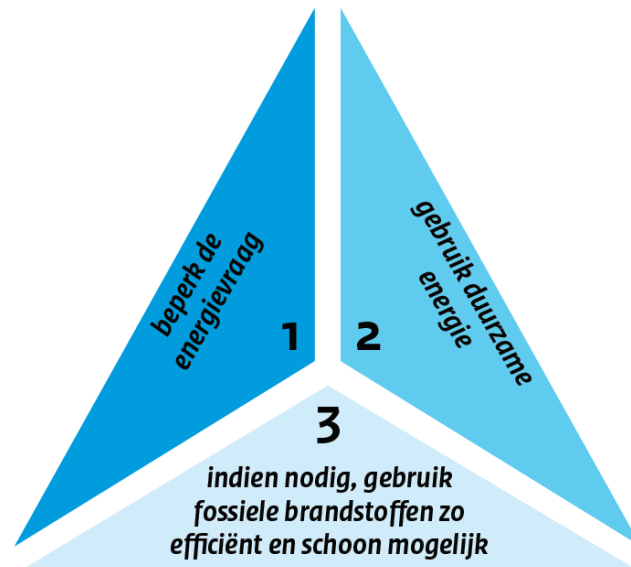

# Cities in the energy transition

- Regional energy strategy
- Local heat strategy
- Social energy transition

# Regional energy strategy (RES)

- Regionally coordinated
- About:
  - Energy systems
  - Areas
  - Implementation
  - Cooperation

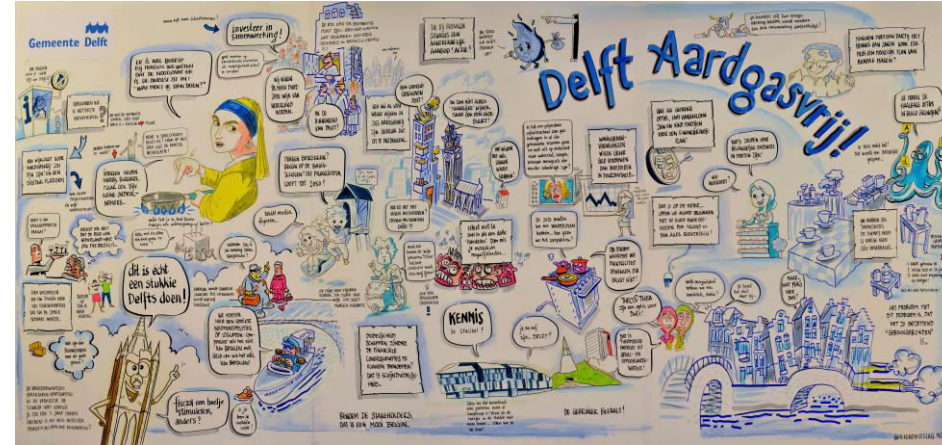

Trias Energetica

# Local heat strategy

In 2021:

Which neighborhood, when, which alternatives.

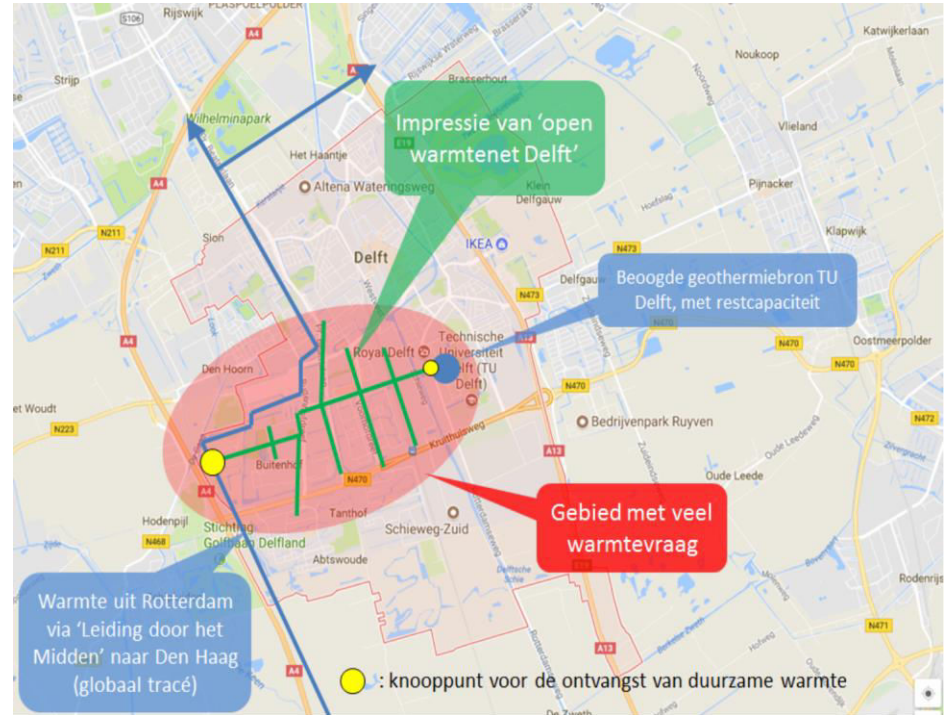

Jointly conducted process by the municipalities, the local network operator, the business community, civil society organizations and citizens' initiatives.

# Local heat strategy

Municipality in the lead:

- in the proces
- facilitator broader perspective (heat distribution, strategy for heat sources)
- consideration in the general interest

# Social energy transition

Energy transition not only a technical transition,  
the energy transition also has a big social component!

Important that people with a small income can also  
participate!
